**To Whom It May Concern**

It is indeed a pleasure and a privilege to write this letter of recommendation for **Ms. Preethu M. C.**

Preethu was my primary point of contact at SAB FAST Corporate Services Provider LLC, Dubai, when they were assisting us with setting up our company in the UAE. From the very first interaction, she stood out for her exceptional command over the intricate rules, regulations, and procedural nuances involved in business incorporation in the region. Her knowledge was not merely theoretical, it was practical, precise, and always applied with remarkable clarity and foresight.

What truly sets Preethu apart, however, is not just her professional competence but her attitude. She was unfailingly responsive, proactive, and willing to go well beyond the formal scope of her role whenever the situation demanded it. This was always done with genuine warmth, patience and empathy, qualities that are increasingly rare in today's service-driven but often impersonal corporate environment.

Working with her was an absolute pleasure. Her commitment, dedication, and sense of ownership made the entire process smooth, reassuring, and efficient. She has the rare ability to combine deep technical expertise with human sensitivity and integrity, making clients feel supported rather than merely "handled."

People like Preethu are truly a rare breed. Her loyalty, work ethic, and professionalism will undoubtedly make her an invaluable asset to any organization fortunate enough to have her on their team. I recommend her without hesitation and with the highest degree of confidence.

Warm regards,

**Sandeep Nulkar**
